

# Specification of interactive flat panel

Product Categories: Interactive flat panel

Product Model: 86M5APro

Date: 2022.2

#### 1. Product characteristics

- 1.1 System properties
- Equipped with Android 9.0 Smart OS and a unique 4K UI user interface design;
- 8GB internal cache + 64GB internal storage, for faster operating speeds;
- 1.2 Exterior and smart touch
- Gun-color business appearance, four-corner arc design, safe and reliable; front USB interface that can be shared by dual systems, convenient operation;
- There are 2 USB ports available in the front of board which support dual operating system, and 1
   Type-C port, which is convenient to operate;
- The distance between the tempered glass and the screen is close to 0, which can effectively prevent light reflection, the display effect and the writing experience are excellent;
- High-precision infrared touch frame, touch accuracy ±1mm, support 20-point touch, high sensitivity;
- With OPS interface, it can expand dual system; dual network port design can realize switch function;
- The distance between the toughened glass and the screen is close to 0, effectively preventing light reflection, excellent display effect, and excellent writing experience;
- 1.3 Whiteboard writing
- Support single-point and multi-point writing, writing with a pen tip, adding colored pen effects, etc., any channel and any interface can be annotated;
- Adopt 3.2mm AG anti-glare tempered glass, Mohs hardness level 7, better writing experience;
- 1.4 Conference & Training
- Built-in 13 Megapixel camera and 8-channel array microphone, making remote meetings more convenient and efficient;
- Built-in NFC function, with smart pen, the whiteboard function can be called up at any time;
- Built-in 2.4G/5.8G dual-band dual-network card, supports simultaneous use of wireless Internet access and WIFI hotspot, and the antenna adopts a front hidden design;
- Bluetooth function, which can wirelessly connect to Bluetooth devices such as mobile phones/stereos to transmit data; and supports wireless connection with printing devices for printing;
- 1.5 Commercial Display
- High-definition image processing engine: image motion compensation, color enhancement processing,
   point-to-point precision display technology;
- Full-channel output function: output real-time images with high-definition, stable and low-latency to the expansion device;
- Horion conference central management to meet the needs of different scenarios;

## **2.**Main Specification Parameters

### 2.1 Specification overview

pecification overview	D: 1	
	Display	
Certification	86M5APro	
Size	85.6"	
Backlight type	D-LED	
Brand	3840*2160	
Brightness	350cd/m <sup>2</sup>	
Contrast ratio	1200:1	
Response time	8ms	
Pixel pitch	0.4935mm*0.4935mm	
Refreshing frequency	60Hz	
Viewing angle	178°(H) / 178°(V)	
Color gamut(x% NTSC)	72%	
View area	1895.04mm*1065.96mm	
Display colors	1.07B(10bit)	
Life time	30,000 hrs	
	System	
Solution	MT9950	
Operation system	Android 9.0	
CPU Architecture	ARM A73	
CPU Working Frequency	1.8GHz	
CPU Core	Quad Core	
GPU	Mali-G52	
RAM	8GB	
ROM	64GB	
Power		
Voltage	100 V ~ 240 V/AC, 50/60 Hz	

Power consumption without OPS         380W           OPS Power         18V(DC)/5A           Power consumption in standby mode         <0.5W           Camera           Pixel         13M           FOV         DIAGONAL 85.4±3°           Focus form         Fixed focus           Array Mic           MIC Category         8 pcs omnidirectional silicon wheat           Pick-up Distance         8m           Pick-up Angle         180°           Function           Audio Output Power         10W * 2           WIFI         Support           NFC         Support           Bluetooth         Support Bluetooth5.0           Interface           HDMI-IN         *2           DP-IN         *1           VGA-IN         *1           Audio-IN         *1           USB 2.0         *4	D 11 11 1000	2007/

Power Cable	*1	

# **3.Touch Frame Specifications**

#### 3.1 Product Overview

- High precision of infrared touch frame, resolution by interpolation algorithm can be as high as 32768
   \*32768;
- Support Plug and Play;
- Support 20 Points Infrared Touch;

#### 3.2 Main specification parameters

Sensing Type	Infrared Touch Frame
Surface protection	3.2mm AG Toughened glass
Response Time	<8ms
Touch Accuracy	More than 90% of the touch area of plus or minus 1mm
Minimum Touch Diameter	≥1.6mm(Single-point) ≥2mm(Multi-point)
Number of theoretical clicks	Unlimited
Interface Type	USB
Working Voltage	DC+5V±5%
Power Consumption	≤2W

# 3.3 Operating system and software

Multi-touch supported operating system	Multi-touch: Windows 7/8/10, Android, Linux
	Single-touch: Windows XP, Mac OS X, Chrome
